Re: WT Docket 11-56
City of Lewisburg, West Virginia
Request for Waiver submitted March 14, 2011
Comment Date: April 15, 2011; Reply Date: April 25, 2011

Dear Mr. Kaplan:

As discussed with Scot Stone, the City of Lewisburg (the "City") selected equipment vendor Sensus USA Inc. for the referenced project for two reasons. First, Sensus' design and product favorably impressed City engineers. Second, a Sensus-backed group submitted the only qualifying response to the City's RFP.

The City applied to the Department of Environmental Protection of the State of West Virginia, which in turn utilized Green Project Reserve monies under the requirements of the American Recovery and Reinvestment Act of 2009. The City received an award of a fixed amount to be spent on the project. The City then published a Request for Proposal (RFP) to build the project according to specifications for a fixed price consistent with the award amount. The C.I. Thornburg Co., Inc., an engineering firm located in Huntington, West Virginia, submitted the only qualifying response. C.I. Thornburg's RFP response proposes to use Sensus' design and equipment to build the project. The City awarded the job to C.I. Thornburg.

Please call with any further questions. Thank you for your prompt attention.

Very truly yours,

Julian P. Gehman
